

Tablet Pro

2016 solid dose training

Techceuticals: hands-on 2 1/2 day seminar

The Course

- Formulation
- Granulating
- Blending
- Milling
- Tablet Press Tooling
- Tablet Press Setup
- Tablet Press Operation
- Tablet Press Cleaning
- Tablet Press Maintenance

Defects

- Capping
- Lamination
- Sticking
- Hardness
- Metal
- Mottling
- Splitting
- Chipping
- Black Spots / DVD

About This Course:

Tablet Pro is a comprehensive hands-on seminar focusing on tablet making and the tablet making process. This course provides a comprehensive understanding of the processes that impact tablet production, including a hands-on session on how to set-up, operate, and clean a tablet press. Together with ways to solve common tablet defects, this training provides the basics about formulations, how they work, and the roll of the excipients. The participant will see first hand how different granulating processes can provide vastly different results. At the end of this course the participant will understand what is necessary to make, or improve a tablet making process and will receive a certificate of completion.

Who Should Attend:

This course is designed to provide powerful tools that the participant can put to work immediately. If you are involved in the tablet compression and tablet manufacturing environment this course is for you, including: Managers, Supervisors, Operators, Tech Services, R&D, QA/QC, and maintenance... or if you are new to the tableting world you will benefit from this seminar.

This Course Covers:

Hands-on workshops, tablet press set-up, operation, defect resolution, compression tooling inspection and care, and the process of preparing powders for manufacturing.

Billing and Mailing address: PO Box 605100, Cleveland, OH 44105

Tablet Pro is a two and a half day comprehensive course covering the key fundamentals to understanding tablet manufacturing operations in pharmaceutical and dietary supplement manufacturing.

Tablet Pro delivers the methodology, and mindset required to meet the needs of our changing industry.

We will focus on a step by step explanation of each unit operation within the tablet making process, common terminology, and practical knowledge of each topic.

The main topics are The Tablet Making Process, Unit Operations, Powder & Granulation Flow, Formulation Basics, Tablet Compression Basics, Press Operation, Advanced Tablet Compression, Tablet Press Tooling, Troubleshooting, and Defects.

The participant will be able to quickly look at a formula and determine the process used to manufacture it. They will be able to go into any pharmaceutical company and understand the equipment and the manufacturing pathway.

This program will put different departments on the same page and is an excellent basis for in-house training. Even the most experienced veteran will gain from this seminar. This will be the most enjoyable and educational seminar you have ever attended.

The Techceuticals Training Center in Cleveland, OH will provide the perfect setting for a comprehensive pharmaceutical manufacturing seminar. This is an opportunity to meet and work with other professionals.

Tablet Pro

Topics & Schedule

Day 1— 8:30 am - 4:30 pm

- Unit Operations
- Making a tablet
- Powder & Granulation Flow
- **What's in a formulation and why**

Day 2— 8:30 am - 4:30 pm

- Granulating & Blending
- Tablet tooling basics
- Press setup, and operation

Day 3— 8:30 am—noon

- Troubleshooting & Defects
- Summary / Q&A

Course Fee and information

This session fee will include the 2.5 day course, a detailed course manual, personalized training certificate, along with continental breakfast, lunch, snacks, and beverages each day.

AN INVITATION FROM MIKE TOUSEY

I have been involved in the tablet making since 1973 and have provided consulting and training to pharmaceutical, nutritional, chemical, industrial and related industries throughout the world. Everyone within the manufacturing facility from management to the operator, including R&D, QA, Tech Services, Maintenance, Supervisors, and Leads will benefit from our consulting and training programs. The goal is to have everyone exposed to the same information, to create a common denominator and to open communication within departments. Companies that participate in our programs are encouraged to use our training materials to improve their own in house training programs.

You're invited to visit our website for technical tips, published articles, and many other resources. Please visit us at: www.techceuticals.com. I invite you to discuss this information with me in person. I look forward to hearing from you.

Sincerely,
Michael D Tousey
Technical Director/CEO
