

Tablet Defects

2015 solid dose training

Techceuticals: hands-on 2 1/2 day seminar

The Course

- Identification
- Root cause
- Solutions
- Process
- The tooling
- The press
- The environment
- The raw materials

Defects

- Capping
- Lamination
- Sticking
- Hardness
- Metal
- Mottling
- Splitting
- Chipping
- Black Spots / DVD

About This Course:

Tablet Defects is a comprehensive course designed for the entire manufacturing team. The result of all powder preparations is not discovered until the tablet comes off the press. This course defines the defects, establishes root cause and sets about an action plan on how to solve the problem.

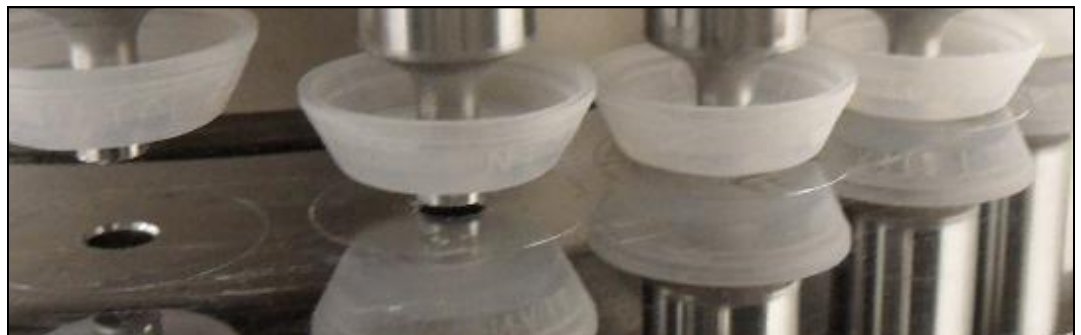

The participant will mill, granulate, tablet, encapsulate, and coat.

Who Should Attend:

This course is designed to provide powerful tools that the participant can put to work immediately. If you are involved in the manufacturing environment this course is for you, including: Managers, Supervisors, Operators, Tech Services, R&D.

This Course Covers:

Solving defects requires a look at formulation, blending, milling, granulation, drying, tableting, and tooling with step by step instruction, defects resolution, and troubleshooting sessions.

Billing and Mailing address: **PO Box 605100, Cleveland, OH 44105**

Training Location and Shipping address: **2917 E. 79th Street, Cleveland, OH 44104**

Tablet Defects

This program will demonstrate how to clearly identify, establish root cause, and solve common defects in a systematic way.

We will look at every step in the process and determine the effect and results.

Defining the problem is 90% of the challenge and we will provide proven methods for evaluating product performance to eliminate the defect and optimize the process.

We will focus on terminology, and practical knowledge. How to optimize a product and identify how to make it perform the best it possibly can.

The participant will walk away with a new skill set that can be applied the moment they walk into their own facility.

Even the most experienced veteran will gain from this seminar. This will be the most enjoyable and educational seminar you have ever attended.

The Techceuticals Training Center in Cleveland, OH will provide the perfect setting for a comprehensive tableting compression operations.

This is an opportunity to meet and work with other professionals.

AN INVITATION FROM MIKE TOUSEY

I have been involved in the tablet making since 1973 and have provided consulting & training to pharmaceutical, nutritional, chemical, industrial and related industries throughout the world. Everyone within the manufacturing facility from management to the operator, including R&D, QA, Tech Services, Maintenance, Supervisors, and Leads will benefit from our consulting & training programs. The goal is to have everyone exposed to the same information, to create a common denominator and to open communication within departments. Companies that participate in our programs are encouraged to use our training materials to improve their own in house training programs.

You're invited to visit our website for technical tips, published articles, and many other resources. Please visit us at: www.techceuticals.com. I invite you to discuss this information with me in person, I look forward to hearing from you.

Sincerely,
Michael D Tousey
Technical Director/CEO
