- Provides industry Webinars on manufacturing techniques

Tablet Pro II

About This Course:

Tablet Pro II is a comprehensive hands-on seminar focusing on tablet making and the tablet making process. This course provides a comprehensive understanding of the processes that impact tablet production, including a hands-on session on how to set-up, operate, and clean a tablet press. Along with basic troubleshooting skills. Together with ways to solve common tablet defects, this training provides the basics about formulations, how they work, and the role of the excipients. The participant will see first hand how different granulating processes can provide vastly different results. At the end of this course, the participant will understand the tablet making process and will receive a certificate of completion.

Who Should Attend:

This course is designed to provide powerful tools that the participant can put to work immediately. If you are involved in the tablet compression and tablet manufacturing environment this course is for you, including Managers, Supervisors, Operators, Tech Services, R&D, QA/QC, and Maintenance...if you are new to the tableting world you will benefit from this seminar.

This Course Covers:

Hands-on workshops, tablet press set-up, operation, defect resolution, compression tooling inspection and care, and the process of preparing powders for manufacturing.

TRAVEL RECOMMENDATIONS:

Airports: **Cleveland Hopkins International Airport** (CLE) is approximately 15 miles from Techceuticals training center.

Where to stay? Downtown Cleveland is the best option for quick access to Techceuticals and local food and entertainment in the evening including the Rock & Roll Hall of fame. Hilton, Hyatt, Westin, Hampton Inn, Marriot, Wyndham, The 9 Cleveland, Hilton Garden Inn, Intercontinental, and many others.
