# Tablet and Capsule Performance – Webinar Series

THE TEN MOST IMPORTANT CHECKS BEFORE YOU START  
THAT MACHINE

## Webinars & Teleconferences

Techceuticals provides custom digital meetings and webinar series to bridge the distance between your company and Techceuticals LLC.

We use Zoom Meetings for most video events. All meetings and webinars are protected by passwords and are recordable for later viewing.

Webinar series and Teleconferencing are designed to give your team actionable items to implement now for immediate performance improvement.

Popular topics include; Formulation, Wet & Dry Granulation, Milling, Blending, Defects & their solutions, Tablet operations, Encapsulation, operations, coating, tooling, changeovers, and downtimes.

Our **Video Meetings** are built to match your needs. We can include a variety of subjects to suite your requirements: Formulating, Granulating, Milling, Blending, Tableting, Tooling, Coating, Encapsulation, Defect Resolution, and Bottle/Blister Packaging.

Our **Free Webinars** are dedicated to bring our knowledge on solid dose operations to you. We our sessions discuss on going questions and problems that arise in the oral solid dose industry. Watch them now on our website.

Our **Phone Consultations** are designed to match your needs. Schedule a weekly or monthly meeting with our solid dose expert Mike Tousey. We are available on whats app.

Based on in-person training over the last 30 years, we have developed an elearning series of programs designed for individuals or groups. Thirteen individual segments walk each participant through the entire solid dose manufacturing operations step by step. Designed to watch and then watched again complete with quizzes and the final exam. The objective is to accelerate the learning process, reduce the learning curve, and put the entire team on the same page.
