Custom Solid Dose Course

The Custom Solid Dose Course is a **team focused** two day version of Techceuticals three day Solid Dose Manufacturing Operations training seminar.

We will build a **program designed for your team**, focusing on a variety of topics and **troubleshoot existing problems**. Team Members receive our Solid Dose Manufacturing Course Book and a Certificate of Completion.

Hands on demos designed to give your team actionable items to implement now for immediate performance improvement.

The main topics are Formulation,

Blending, Milling, Granulation, Drying, Final Blending,

Tableting, Tablet Press Tooling, Coating, and Encapsulation.

The participant will be able to quickly look at a formula and determine the processes used to manufacture it. They will be able to go into any pharmaceutical or supplement company and understand the equipment and the manufacturing pathways.

This program will put different departments on the same page and is an excellent platform for in-house training.

Even the most experienced veteran will gain from this seminar. This will be the most enjoyable and educational seminar you have ever attended.

TRAVEL RECOMMENDATIONS:

Airports: **Cleveland Hopkins International Airport** (CLE) is approximately 15 miles from Techceuticals training center.
